Discounted Prices on Microsoft Products

Conservative Baptist MissionNortheast has obtained special pricing for licensing of Microsoft products that we are pleased to make available to our CB churches, individual members & associated agencies.

Microsoft Office 2007 Professional Plus: \$125 per license, plus \$10 per installation CD (has Word, Excel, PowerPoint, Access, Outlook, Publisher, InfoPath, Electronic Forms, Communicator & other tools)

Windows 7 Pro Upgrade: \$120 per license, plus \$10 per installation DVD

Windows 7 Enterprise Upgrade: \$180 per license, plus \$10 per installation DVD

Most individual Microsoft apps: \$80 per license, plus \$10 per installation CD for FrontPage, Word, Excel, Access, Outlook, PowerPoint, Publisher

MS OneNote 2007: \$45, plus \$10 per installation CD

NOTE: Licenses are downward compatible; i.e., an Office 2007 Pro license can be used to install Office 2003 Pro; a Windows 7 Pro license can be used to install Vista Business or XP Professional, etc.

Software Upgrade Assurance: \$55 per product gives 2 years of free upgrades to any new version (just pay the cost of new installation CD's)

Other Microsoft, Adobe and Symantec products available. Call for pricing.

Projectors, computers and other software available. Call for pricing.

Contact John Johnston at 207-277-5251 or e-mail: Johnston@psouth.net

CB Mission Northeast must purchase and retain ownership of the license(s). We then lease the licenses and assign them to our remote sites (churches, individual members, staff & other CB agencies) for their use. We keep track of the license & authorization numbers and send you installation CD's. Those who lease these licenses from us must release the software licenses and return installation CD's to us when they are no longer being used by them. They are not to be resold or obtained for others outside of our CB family.

John Johnston has been approved to administer our licensing program for us. John has been an associate director for CB MissionNortheast and owns Computer Solutions, a provider of computer hardware and software.
